

Getting Back to the Office Safely

FOUR ESSENTIAL PILLARS TO REOPEN

1

CONTACT TRACING

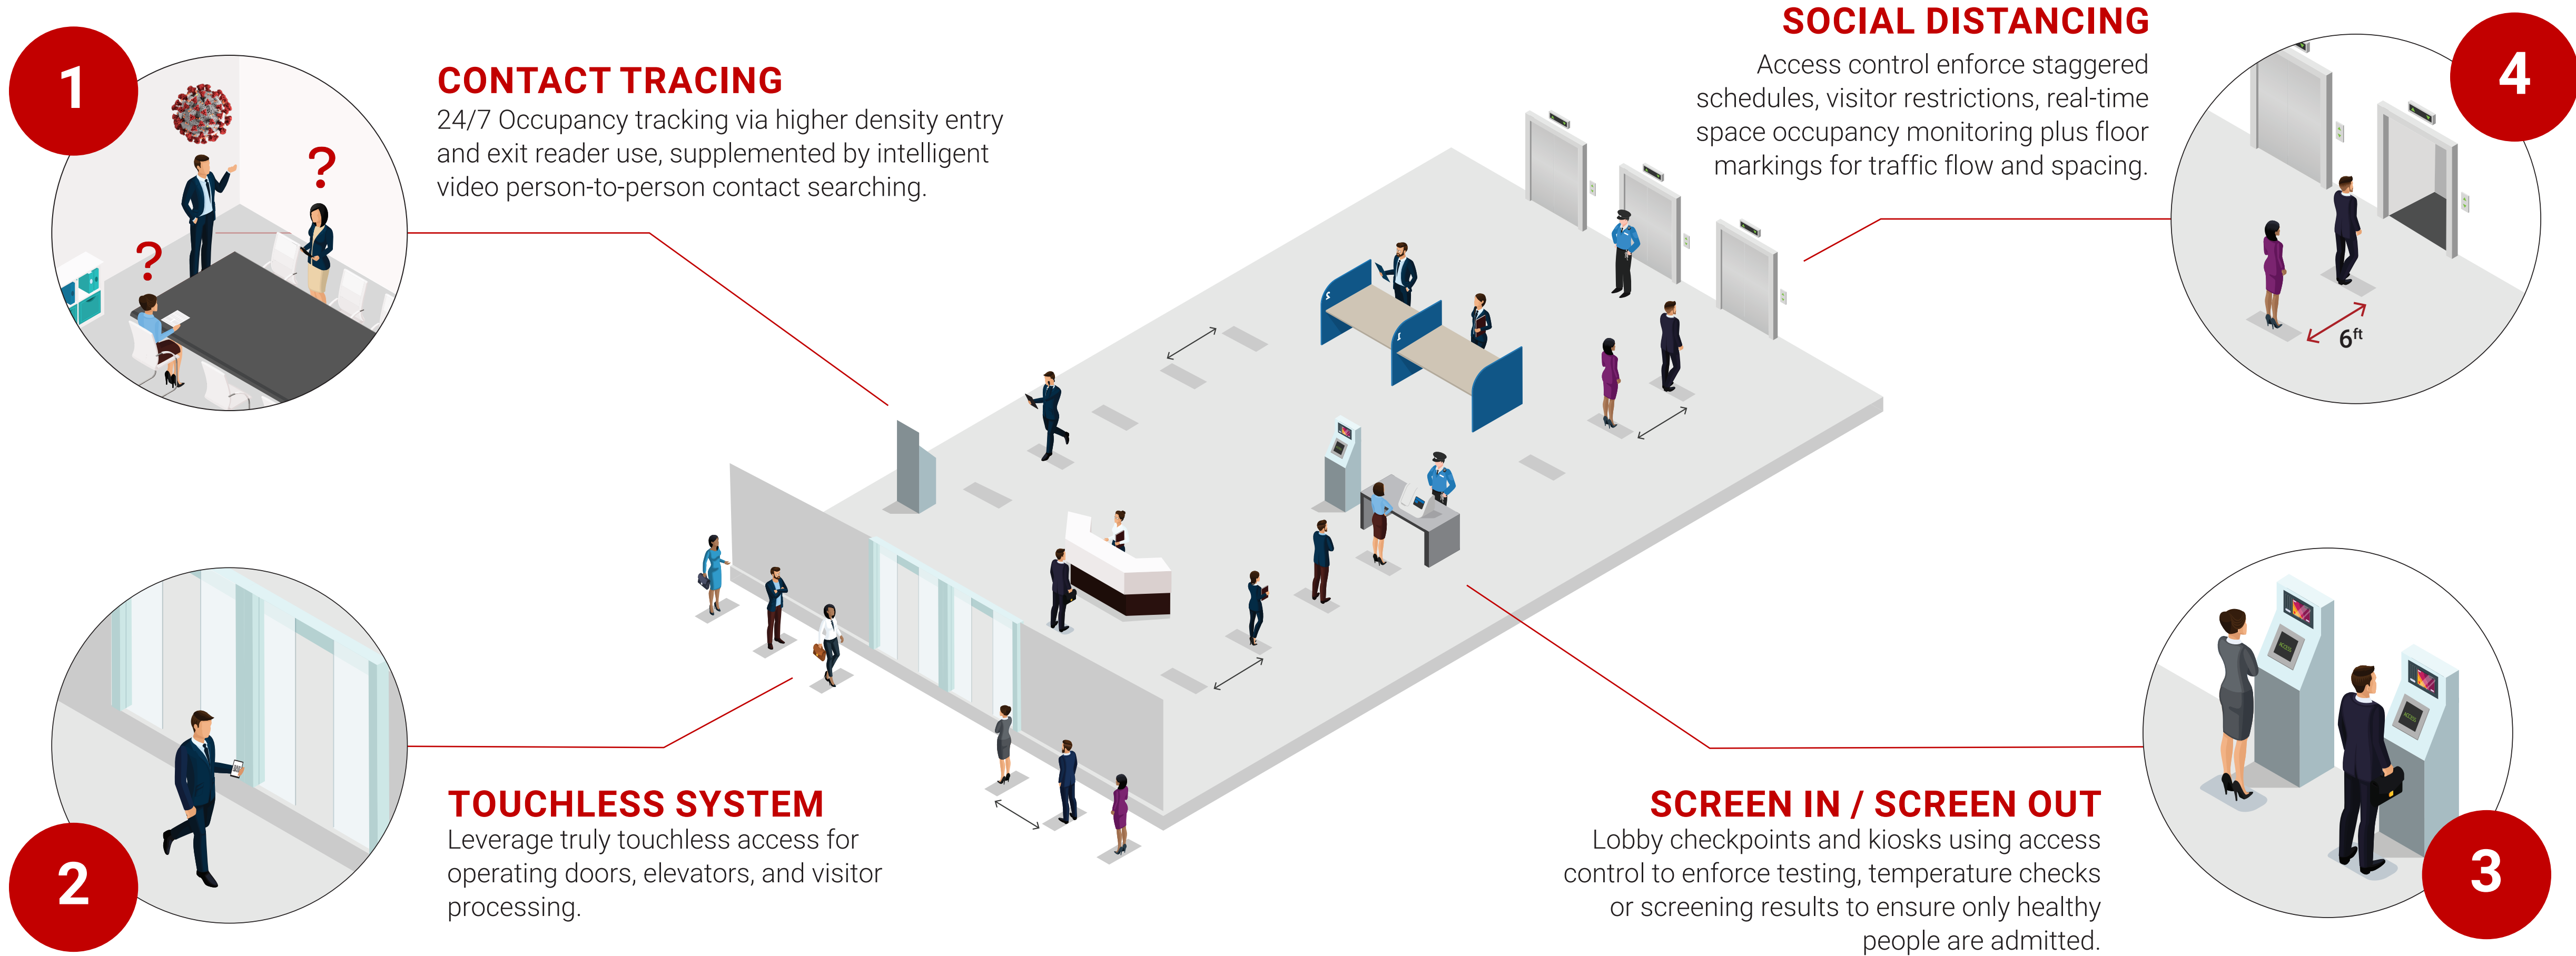

24/7 Occupancy tracking via higher density entry and exit reader use, supplemented by intelligent video person-to-person contact searching.

2

TOUCHLESS SYSTEM

Leverage truly touchless access for operating doors, elevators, and visitor processing.

SOCIAL DISTANCING

Access control enforce staggered schedules, visitor restrictions, real-time space occupancy monitoring plus floor markings for traffic flow and spacing.

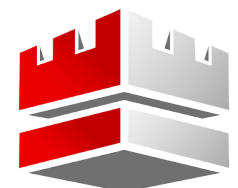

4

3

SCREEN IN / SCREEN OUT

Lobby checkpoints and kiosks using access control to enforce testing, temperature checks or screening results to ensure only healthy people are admitted.
